

Top physicians highlight the advantages of Clear + Brilliant in their practices.

"Before now we didn't have anything to offer the patient between peels and aggressive lasers that would mitigate photodamage sooner and more subtly."

- Susan Van Dyke, M.D.

"They love the concept of fighting aging on a regular basis without a huge commitment of finances or downtime. They [patients] feel comfortable with the gentler therapy and don't have to take bigger steps until they are ready."

- Scott M. Gerrish, M.D.

"It opens up a new and appealing avenue of treatment by offering prevention and maintenance."

- Scott M. Gerrish, M.D.

"As microdermabrasion created a stir almost two decades ago, Clear + Brilliant might cause similar waves."

- Vic Narurkar, M.D.

"With the amount of possibilities physicians will be amazed at how many patients love this treatment."

- Susan Van Dyke, M.D.

"Everyone wants to slow the appearance of aging. Nobody wants downtime or painful treatment - this is the perfect solution."

- Scott M. Gerrish, M.D.

"Treatment is safe and effective, it generates revenue, it takes up less of your time, and it makes patients happy. It doesn't get much better than that."

- Vic Narurkar, M.D.

"It's gradual and consistent, not dramatic but still pleasing. Patients tell me they feel they're getting more than they see from peels, a greater brilliance and nice changes in texture."

- Susan Van Dyke, M.D.

Help your patients prevent aging.
