XEOMIN WRINKLE RELAXER CONSENT

ONLY SIGN IF YOU FULLY AGREE AND UNDERSTAND

I understand Xeomin is a purer form of botulinum toxin (Botox), giving a more natural, softer result, and generally does not achieve a frozen look found with other wrinkle relaxer products such as Botox and Dysport. Xeomin is not recommended for relaxing strong muscles and longevity may vary between patients.

I have been informed that should I require further treatment this will incur full associated charges.

This is to confirm that I have been fully informed of my treatment options and understand the above information prior to receiving treatment.
